

# Mixer Rental

Mixer for Densit® WearFlex™

## Features & Benefits

The **Wear-Con Densit® Mixer** is specifically designed to mix **Densit® WearFlex™** to the perfect consistency in the least amount of time. This makes the **Wear-Con Densit® Mixer** the most cost effective method of preparing WearFlex for application.

## Specifications

The **Wear-Con Densit® Mixer** is easy to operate. We will thoroughly instruct you how to use it.

## Determination of Rental Period

1. All rental equipment will be shipped via freight carrier unless otherwise requested by the customer. All freight charges will be added to the customer invoice. The rental period and charges are outlined in the Customer Quote as agreed by both the Customer and **Wear-Concepts**.
2. All return freight charges are the responsibility of the customer. No collect or C.O.D. shipments will be accepted.
