

WearBack™ Elbows

Elbows Reinforced on their back side

Densit® **WearBack™** Elbow
in a fiberglass wrap.

Features & Benefits

Wear-Con **WearBack™** Elbows are reinforced on the backside of the bend to make the elbow last much longer. **WearBack™** Elbows are designed to replace elbows with severe impact, abrasion, and material flow issues.

Installation

Wear-Con **WearBack™** Elbows can be fitted with fixed or loose flanges or be welded into place with a low hydrogen rod such as AWS spec. 7018 on the base metal.

Technical Specifications

Wear-Con **WearBack™** Elbows can have the reinforced backing made out a variety of wear materials. They include: Densit®, TB90™, WC90™ HexTile, WC700Plus™, FeatherClad™ and several others.

Sizes

Wear-Con **WearBack™** Elbows are available in any size or dimension to fit your wear need.

(See reverse for **WearBack™** Elbow options.)
