

Urethane

Urethane

High-Rebound™ Polymer Panels

Features & Benefits

Wear-Con Blue & Orange Urethane offers you superior abrasion resistance. Combining **High-Rebound™** properties, outstanding hydrolytic stability and a low coefficient of friction. **Wear-Con Blue & Orange Urethane** is an exceptional liner for both sliding and impingement abrasion. Ideal applications include wet, humid environments. **Orange Urethane** also provides the added **High-Rebound™** feature of an increased “bounce” to your product when it comes in contact with a panel.

Installation

Wear-Con Blue & Orange Urethane can easily be installed by securing with **Wear-Con Premium Silicone** and/or bolting.

Technical Specifications

Wear-Con Blue & Orange Urethane provides 80-90 Shore A hardness; a tensile strength from 3,000 to 4,000 psi; a maximum service temperature of 180°F; and water absorption rated at ‘nil’.

Sizes

Wear-Con Blue & Orange Urethane are available in various thicknesses and with a variety of backings. The backing options include solid metal, expanded metal, cloth and plain. Imbedded ceramic with a backing is also available.

Standard Sizes							
Dimensions	Thickness						
48"x120"	3/16"	1/4"	5/16"	3/8"	1/2"	3/4"	1"
