PATCH KIT XM INCLUDES:

- 1 lb Resin Part A
- 1 lb Hardener Part B
- 1 Pair Latex Gloves
- 1 Mini-Trowel
- 1 - 3"x6" Expanded Metal Mesh Pieces

FEATURES & BENEFITS

Simple to mix. Simple to use. Simply the best! Wear-Con Triple-Bead 90™ Ceramic Wear Compound's ceramic beads are the perfect size for any job: small enough for pump housings, yet large enough for chutes. Providing excellent resistance to sliding and fine particle abrasion, Triple-Bead 90™ is an essential part of any quick repair job.

INSTALLATION

Wear-Con TRIPLE-BEAD 90™ is easy to mix and install. Simply mix one part TRIPLE-BEAD 90™ Resin - Part A with one part TRIPLE-BEAD 90™ Hardener - Part B and trowel on. TRIPLE-BEAD 90™ is workable for up to 45 minutes, and is water soluble until curing is complete.

TECHNICAL SPECIFICATIONS

Wear-Con TRIPLE-BEAD 90™ can be used in applications with temperatures up to 250°F (for higher temperatures see reverse). Due to its paste consistency sagging is not an issue, therefore TRIPLE-BEAD 90™ conforms to irregular and overhead surfaces. TRIPLE-BEAD 90™ cures chemically, resulting in minimal shrinkage. Moh's Hardness Scale of 9 for beads, Compressive Strength is 10,000 psi, Tensile Strength of 3600-4100 psi, Flexural Strength N/A, Shear Strength N/A, Absorbsion Rate is 0.24%.

SIZES

Wear-Con TRIPLE-BEAD 90™ is available in both 28.6 lb Bucket Kits and convenient 2 lb Patch Kits containing everything you need to get the job done.

STANDARD COVERAGES		
Kit	**Thickness**	**Coverage**

TRIPLE-BEAD 90™

CERAMIC WEAR COMPOUND High Temp

FEATURES & BENEFITS

Simple to mix. Simple to use. Simply the best! Wear-Con TRIPLE-BEAD 90™ High-Temp Ceramic Wear Compound’s ceramic beads are the perfect size for any job: small enough for pump housings, yet large enough for chutes. Providing excellent resistance to sliding and fine particle abrasion, TRIPLE-BEAD 90™ High-Temp is an essential part of any high-temp quick repair job.

INSTALLATION

Wear-Con TRIPLE-BEAD 90™ High-Temp is easy to mix and install. Simply mix four parts TRIPLE-BEAD 90™ High-Temp Resin - Part A with one part TRIPLE-BEAD 90™ High-Temp Hardener - Part B and trowel on. TRIPLE-BEAD 90™ is workable for up to 45 minutes, and is water soluble until curing is complete.

TECHNICAL SPECIFICATIONS

Wear-Con TRIPLE-BEAD 90™ High-Temp can be used in applications with temperatures up to 450°F continuously. Due to its paste consistency sagging is not an issue, therefore TRIPLE-BEAD 90™ High-Temp conforms to irregular and overhead surfaces. TRIPLE-BEAD 90™ cures chemically, resulting in minimal shrinkage. Moh’s Hardness Scale of 9 for beads, Compressive Strength is 10,000 psi, Tensile Strength of 3600-4100 psi, Flexural Strength N/A, Shear Strength N/A, Absorbsion Rate is 0.24%.

SIZES

Wear-Con TRIPLE-BEAD 90™ High-Temp is available in both 28.6 lb Bucket Kits and convenient 2 lb Patch Kits containing everything you need to get the job done.
